

Program

15:00	Registration & welcome drinks
15:20	Welcome address by Alain-Serge Porret, Vice-President, Integrated and Wireless Systems, CSEM "IoT: What's next?"
15:30	"Megatrends in IoT and practical solutions" Costas Meimetis , Corporate Strategy, u-blox
15:50	"Future of IoT, towards a merge of disciplines" Olivier Desjeux , Consultant Digital Strategy and Technology
16:05	"IoT everywhere? Harvesting energy to power future IoT nodes" Marcel Meli , Lecturer and Head of Research Area, ZHAW University of Applied Sciences, Institute of Embedded Systems
16:20	Coffee break
16:35	"Internet of Things in massive Machine Type Communication - so close, yet so far" Qiuting Huang , Director of Integrated Systems Laboratory, ETHZ
16:55	"LPWA and LoRaWAN IoT networks: opportunities and applications" Domenico Arpaia , CEO, OrbiWise
17:10	"Robust connectivity for critical systems" Philippe Dallemagne , Section Head, Embedded Wireless Systems, CSEM
17:25	Round table « IoT : What's next ? » moderated by Alain-Serge Porret with the participation of all speakers
18:00	Networking apéro
